PROFESSIONAL SUMMARY

Backend Engineer with experience building scalable and production-ready systems, currently contributing to enterprise B2B and B2C platforms at Weekend Inc. for PT HM Sampoerna, including AYO KASIR and AYO QONCIERGE. Experienced in developing microservices-based architectures using Laravel and Node.js, with strong focus on system reliability, performance, and maintainability.

Skilled in designing RESTful APIs, optimizing database performance, and implementing clean architecture principles in high-standard engineering environments. Proven ability to improve system efficiency and support business-critical workflows through well-structured and maintainable backend solutions.

EXPERIENCE

Backend Engineer – Weekend Inc.

July 2025 – Present

Contributed to enterprise-scale B2B and B2C platforms for PT HM Sampoerna, including AYO KASIR and AYO QONCIERGE, built on microservices architecture using Laravel as the core backend framework.

- Developed and maintained core backend modules such as staff management, coach management, and order aligned with business workflows.
- Designed and implemented RESTful APIs following clean architecture and service layer patterns.
- Optimized database performance by resolving N+1 query issues and improving query efficiency.
- Implemented structured logging and error handling to improve system observability and debugging.
- Enhanced code quality and engineering workflow using Husky, Commitlint, and diff-based linting pipelines across Node.js, Laravel, and .NET.
- Supported cloud infrastructure and deployment processes using AWS and CI/CD pipelines with Jenkins.
- Collaborated in Agile/Scrum environment including sprint planning, stand-ups, and retrospectives.
- Worked closely with cross-functional teams to ensure scalability, reliability, and production readiness.

Web Developer – Freelance

Oct 2023 – July 2025

- Built backend applications using PHP, Laravel, and PostgreSQL.
- Developed e-commerce platform serving 1,000+ users.
- Improved SQL query efficiency.

Assistant Mentor – Google Developer Student Club

Nov 2023 – Sep 2024

- Mentored 50+ students in web development technologies.
- Conducted workshops and project-based learning sessions.

Full Stack Developer – Roleplay Studio (Internship)

Mar 2023 – Oct 2023

- Developed interactive company profile websites.
- Collaborated with designers and project managers.

Full Stack Developer – CV. Purnama Kreatifa (Internship)

Sep 2022 – Dec 2022

- Built location-based attendance system with geofencing.
- Collaborated with cross-functional teams.

EDUCATION

Telkom University

Associate Degree in Computer Science

Sep 2023 – Sep 2027

SMKS Antartika 2 Sidoarjo

Aug 2020 – Jun 2023

Software Engineering

SKILLS

- **Languages:** JavaScript, PHP, SQL
- **Frameworks:** Laravel, Express.js, CodeIgniter
- **Databases:** PostgreSQL, MySQL
- **Tools:** Git, Node.js, Docker
- **Core:** REST API, Backend Architecture, Database Optimization

LANGUAGES

- English (Professional Working Proficiency)
- Indonesian (Native)
